3rd November 2025

Dear Sirs,

I acknowledge the receipt on 24th October 2025 of four specimens of water, submitted to this laboratory as representative samples of the mains water from Stowford Community Centre, Chambers Close, Sidmouth, EX10 9YL.

I have caused the required examinations to be carried out with the results shown below:-

Specimen Marked	Total viable count of bacteria		Residual chlorine (mg/litre)
	@ 22°C (per ml)	@ 37°C (per ml)	
Main Kitchen, Hot	11	66	< 0.01
Main Kitchen, Cold	2	35	0.21
Childrens Kitchen, Hot	4	9	< 0.01
Childrens Kitchen, Cold	9	82	0.02

The results indicate that all four specimens were of satisfactory bacteriological quality.

I shall be pleased to answer any questions arising from this report, if desired.

Yours faithfully,

Nigel Cauchois
